In This Chapter Understanding what the Creative Suite has to offer Getting the most out of the Photoshop Creative Suite Understanding the difference between Photoshop and the rest of the Creative Suite The Adobe Creative Suite gives you the most powerful and versatile digital image-editing toolkit you'll find anywhere. It consists of Adobe Photoshop, Adobe InDesign (Chapter 2), Adobe Fireworks (a vector-graphics program), Adobe Illustrator (a vector-graphics program), and Adobe Acrobat. It provides the most comprehensive set of tools for laying out and creating print and electronic documents. This book focuses on Photoshop, but the processes we discuss in this book work with the other programs in the suite and Photoshop includes a lot of the functionality used in the other programs. You can edit images in all these programs without any overlapping functionality, but using all the tools can be time consuming and daunting. Learning one program well means being able to use it well in all the others. Of course, you can study all four of the programs by going to the special versions of their websites. And when you complete this book, you'll have seen many of the features of Photoshop, Fireworks, Illustrator, and Acrobat so that you have an idea of what to expect from all the programs. After spending time with the programs to see what each one does, you will be ready to download the trials of Photoshop, Fireworks, Illustrator, and Acrobat, as well as the other programs, from the Adobe website. You don't have to buy them to begin your studies, but they do give you a better understanding of the tools and processes that you'll be using in the programs. ## What Is Photoshop? The centerpiece of the suite is Photoshop, an incredibly versatile program for creating, modifying, and organizing digital images. You can use it to modify any type of image — photographs, illustrations, vector graphics, and so on. Photoshop also includes Adobe Fireworks. If you use Illustrator, Fireworks can be an essential part of your workflow. You'll find more on Fireworks in Chapter 9. You can use the other three members of the suite in almost any combination and have a complete tool kit for preparing images for print and electronic media. Photoshop is the most powerful and versatile of the Photoshop-family programs

Armentela was at the U.S. House hearing Wednesday on the proposed bill to remove legal protections against anti-LGBT discrimination. About 200 people made up the crowd, according to the Washington Blade. Speakers included the Rev. J. Herbert Nelson, pastor of Aurora Congregational Church, and businesswoman Margrethe Vestager. The legislative effort has mixed support from the business community. "Telling businesses they can't choose who they do business with is wrong and won't help build an inclusive and welcoming environment where everyone is treated equally," said Armentela, a former state representative from Illinois. She added: "As a business owner, I support increased protections for individuals and businesses who practice anti-discrimination, so we can focus on serving people, and not on getting rid of policies designed to protect us all from employment and housing discrimination."Donna Brazile to Replace John King on CNN: Sources Donna Brazile is ready to step in as the new host of CNN's Sunday political affairs show, "State of the Union," sources tell CNN. She will replace John King, who will leave at the end of this year as the host of the third hour of the program, the sources say. Brazile's name has been mentioned as a replacement for King since April, when she started advising the network on politics. "State of the Union" is considered to be a bellwether of sorts for the presidential election, as it is broadcast by CNN on Sunday before candidates discuss their first debate. The show has featured front-runners Hillary Clinton and Donald Trump, as well as other candidates. Sources tell CNN that the transition was intended to be announced last week, with King starting to move back from his duties on "SOTU" on Wednesday. King had already announced his departure last week. In a statement, CNN said it's launching a search for a new host for the program. CNN planned to name King's replacement on "SOTU" this Sunday, but would not make an immediate announcement until a new host was chosen. "State of the Union" is one of CNN's most prominent shows. It is also its highest-rated program in total viewers, with the exception of the Sunday morning talk shows. King joined CNN as host of "State of the Union" in 2005. He hosted "SOTU" from 2005
