On the structure - I would change the deal ticket to reflect a flat - minus basis of course - volume of \$360,000 for the basis portion and \$81,000 for the treatment of the 30 day money. We basically will have a right to purchase the PV @ the gas price for any earlier period under the deal (i.e., we get to lock in the specific volume today and treat it as fixed), but I believe we do not have the right to sell the PV (and thus lock in the gas price). This also would fix the DTM issue - we would pay the fixed price per day and not an average price for the fixed period. Finally, I have not been able to determine if or when the state tax refund for Q4 2001 was sent, so I would like to leave that in place for now. It appears the \$81,000 is being recognized as income in the 4th QTR. If you have any questions please call. Thanks, Ellen Mark - just a reminder that we need to exchange models today if possible. Q: Why is the flag "not an answer" now an "invalid flag"? I've just encountered that the flag "not an answer" is now an "invalid flag". This makes the flag (which was super efficient for me) less useful and confusing. 04aeff104c
